

How do I know what query criteria DRINFO uses get the information to create the list of patients?

The owl of knowledge

Topic	Image	Notes
Query information		<p>Click on the owl icon</p> <p>and the first tab displays the</p> <p>Query Information</p>

How do I log out?

First close the month audit report by clicking the **close cross** icon in the top right corner.

Next, log out by clicking the **padlock** icon on the screen with the folders in the filing cabinet. By doing this the glass screen will slide across the filing cabinet and no-one can access your monthly audit report folders unless they type in the log in key.
